Innovation & Technology

Tower has developed and manufactured high-performance Metalforming Lubricants since 1933. Our team of expert Chemists formulate innovation into every product using the latest additive technology ingredients, resulting in value solutions and reduced costs. Tower has the expertise and products to meet all of the challenges for your specific application through...

High Performance Technology

Performance

Our formulated lubricants provide high performance and lubricity for a variety of metals and applications. We formulate with the highest quality ingredients to improve tool life, improve cleanability, reduce application volume, lower concentration and improve part quality while providing excellent rust and stain protection.

Product Lines

KLINEDRAW® Water soluble, Oil-Free solutions, producing exceptionally clean parts that can be welded without cleaning. Provides excellent rust and stain protection and is suitable for both light or heavy-duty metalforming operations.

TOWERPRO products offer premium performance from light-duty to extra heavy-duty metalforming operations. Formulated for long lasting stable emulsions, this product line is formulated to provide "extreme" performance characteristics and excellent wetting of metal surfaces.

SAF-T-VANISH®
VOC Free disappearing fluids, truly unique in the industry.

TOWERDRAW
Vanishing fluids—Compounded Oils—Chlorine Free Chemistries.

TOWER FINE BLANKING SERIES
Offering both traditional and Chlorine -Free Chemistries

Exceptional Value

- Increased Tool Life
- Improved Part Quality
- Reduced Application
- Reduced Concentration
- Lower Cleaning Cost
